

**Ionic Webinar**

# Housekeeping Items

- ✓ The presentation is being recorded
  - ✓ The length will be ~30 mins
- ✓ Slides will be sent out after the event
- ✓ Submit questions for Q&A at the end

# Today's guests

**Mike Hartington**

Developer Advocate

**Jake Lumetta**

CEO of ButterCMS

**Ionic Framework**

## What is Ionic

- ✓ UI Framework for building iOS, Android, and Web Apps
- ✓ Powering over 10% of apps in Apple and Google Play Stores
- ✓ Used by more than 5 million developers in 200 countries

## Built with Modern JavaScript

- ✓ Built as stand-alone web components
- ✓ Pairs well with major frameworks 🍷
- ✓ Familiar tooling provided by framework of choice

**Why Do we need Ionic?**

# Building for Mobile is Hard

- ✓ Multiple Platforms styles to design for
  - ✓ Different code base to maintain
    - ✓ Steep learning curve
    - ✓ What about PWAs?

*Ionic provides the pieces needed to build  
high quality app, all with web technology*

**Sample project**

**So we have an app**

What's next?

**How can we make our app dynamic?**

**ButterCMS**

**Thanks Jake!**

**Let's integrate Butter into our App**

**Demo**

## Wrapping Up

- ✓ Ionic: Build amazing Cross platform Apps
- ✓ Capacitor: A modern tool chain for cross platform
- ✓ ButterCMS: Headless CMS for content driven apps

**Q&A**
